| Important Questions | Answers | Why This Matters: |
|---|---|---|
| What is the overall deductible? | \$325 deductible / family for physician and non-hospital and related services | Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the policy, the overall family deductible must be met before the plan begins to pay. |
| Are there services covered before you meet your deductible? | Yes. Preventive care by a Participating Provider List (PPL) provider and routine vision care services are covered before you meet your deductible . | This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ . |
| Are there other deductibles for specific services? | Yes. \$325 deductible / family for hospital and related services \$300 deductible for any service obtained without required precertification There are no other specific deductibles . | You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services. The \$325 hospital-related deductible applies to inpatient hospitalizations , Skilled Nursing Facility admissions, and outpatient emergency room services . The \$300 deductible for services without required precertification is not applied to the out-of-pocket limit . |
| What is the out-of-pocket limit for this plan? | \$1,000 / family for physician visits and hospital and related charges \$1,000 / family for prescription drugs | The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , the overall family out-of-pocket limit must be met. |
| What is not included in the out-of-pocket limit? | \$300 deductible for any service obtained without required precertification , the extra cost of using brand name or non-preferred drugs, balance-billing charges, and health care this plan doesn't cover. (This plan has no premiums .) | Even though you pay these expenses, they don't count toward the out-of-pocket limit . |

| Important Questions | Answers | Why This Matters: |
|--|---|--|
| Will you pay less if you use a participating provider? | Yes. See www.umwafunds.org or call 1-800-291-1425 for a list of participating providers. | This plan uses a Participating Provider List (PPL) network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services. |
| Do you need a referral to see a specialist? | No | You can see the specialist you choose without a referral. |

 All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.
