INTRODUCTION

The UMWA Health and Retirement Funds (“the Funds”) is pleased to provide the 2025 **Funds Supplemental Formulary Prescribing Guide** as a useful reference and informational tool. The **Funds Supplemental Formulary Prescribing Guide** can assist practitioners in selecting clinically appropriate and cost-effective products for their patients.

The drugs represented have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The **Funds Supplemental Formulary Prescribing Guide** is reflective of current medical practice as of the date of review.

The information contained in this **Funds Supplemental Formulary Prescribing Guide** is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. This **Funds Supplemental Formulary Prescribing Guide** is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in his or her choice of prescription drugs. All the information in the **Funds Supplemental Formulary Prescribing Guide** is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the National Guideline Clearinghouse site at <https://www.ahrq.gov/gam/>.

PREFACE

The *Funds Supplemental Formulary Prescribing Guide* is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action.

Individual pharmacy benefit plans may impose restrictions or not reimburse some products. In addition, over-the-counter (OTC) products, with the exception of insulin and diabetes monitoring products, are usually not included in the pharmacy benefit. Pharmacy law requires a valid prescription for purchase of needles and syringes in certain states. OTC products are listed for informational purposes. If covered in the pharmacy benefit, OTC products require a valid prescription.

Drugs represented in the ***Funds Supplemental Formulary Prescribing Guide*** may have varying cost to the plan member. Prescription benefit plan may alter coverage of certain products or vary copay amounts based on the condition being treated. Generic medications typically are available at the lowest cost, brand-name medications on the ***Funds Supplemental Formulary Prescribing Guide*** will generally cost more than generics, and brand-name medications not on the list will generally cost the most.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of an independent National Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve clinically appropriate drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Employees with significant clinical expertise are invited to meet with the P&T Committee, but no CVS Caremark® employee may vote on issues before the P&T Committee. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product.

One way to reduce out-of-pocket cost is by requesting a generic drug. Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness and are manufactured under the same strict standards that apply to brand-name drugs.

- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug. Generics may be different from the brand in size, color, and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug.

FUNDS SUPPLEMENTAL FORMULARY PREFERRED PRODUCT PROGRAM

Effective 04/01/2025

The Funds has a Preferred Product Program in the drug classes shown in the chart below. The preferred drugs in these classes are available to the beneficiary at the standard copay. If a non-preferred drug within these classes is selected, the beneficiary will be required to pay the standard copay plus an additional charge. See the appropriate sections for the preferred and non-preferred lists. Additional classes may be added in the future. If you have questions, please call CVS Caremark® Customer Care at 1-800-294-4741. The current Funds Supplemental Formulary Preferred Product Program Drug List is as follows:

Please contact the Funds Call Center for more information if you have any questions about the Federal Black Lung Program Benefits.
- Note: Brand names listed on the preferred column may be subject to a change of status when a generic or OTC version becomes available.
- All medications contained in this list are subject to coverage based on FDA-approved maximum dosages(s).
- For more information about The Funds' Drug Benefit, go to UMWAFunds.org.

PRIOR AUTHORIZATION (PA)

Prescriptions for certain medications require a prior authorization to help ensure the medication is cost-effective and clinically appropriate. The review uses both formulary and clinical guidelines to determine if the plan will pay for certain medications.

For prior authorization review, your doctor should call CVS Caremark® at 1-800-294-5979 before you go to the pharmacy. The prior authorization line is for your doctor's use only.

SPECIALTY GUIDELINE MANAGEMENT – PRIOR AUTHORIZATION FOR SPECIALTY DRUGS

Your plan has guidelines in place to help ensure appropriate coverage of specialty medications. Many specialty medications are biotech drugs or drugs that have limited access, complicated treatment regimens, specialty storage requirements and/or special monitoring requirements. Specialty medications will be reviewed for clinical appropriateness based on clinical guidelines, as well as formulary coverage and/or quantity limits. Your doctor needs to obtain prior authorization for specialty drugs before they will be covered by your prescription benefit plan.

For a full list of specialty drugs, refer to **CVSSpecialty.com** or call CVS Specialty® at 1-800-237-2767. For specialty drug prior authorization review, your doctor should call CVS Specialty at 1-866-814-5506 before you go to the pharmacy. The prior authorization line is for your doctor’s use only.

ADVANCED CONTROL SPECIALTY FORMULARY®

The Funds has a preferred product program called the Advanced Control Specialty Formulary (ACSF). The preferred drugs in ACSF classes are available at the standard copay. If a non-preferred drug within these classes is selected, the prescriber will be asked to consider preferred drug(s) to be used before the non-preferred drug will be

covered. If you have questions, please call CVS Caremark Customer Care at 1-800-294-4741. Visit www.umwafunds.org/prescription-drug-plan-benefits to see the ACSF Drug List and for more information.

QUANTITY LIMITS

The drug classes listed on the following chart have limits based on FDA-approved prescribing information, approved medical guidelines and/or the average utilization quantity for the drugs.

The limits affect only the amount of medication that the prescription benefit plan pays for, not whether you can get a greater quantity. The final decision about the amount of medication you receive remains between you and your doctor. Please contact CVS Caremark Customer Care for specific questions about quantity limits.

Note: Some of the quantity limits have a prior authorization available if you exceed the initial drug's limit. Those drugs with a prior authorization available are noted below. If your doctor determines that a different amount is appropriate, your doctor should call CVS Caremark at 1-800-294-5979 to request prior authorization for a larger quantity. The prior authorization line is for your doctor's use only.
